WASHINGTON MATTERS.

itable Investments, Address,

ARID LANDS TANGLE. Washington, Aug. 14.—The conference committee of the two houses on the sundry civil bill had another meeting yester-day. In conversation, Mr. Cannon said he was willing to so modify the act of 1888 as to validate all entries made since that act became a law, but not to repeal it, and he would insist upon the reservation of canal and reservoir sites already made or to be made, and a modification of the assembly. They say the strike will exto be made, and a modification of the land laws which would repeal the preemption law and leave only the home-stead and desert land acts in force and

to 160 acres. He intimates that if the senate does not want to accept this they will have another conference. On the other hand, the senators say they will not consent that there should be any tinkering with the land laws on an appropriation bill. Thus the matter is getting into a con-

would restrict all entries under the latter

There were 10,000 entries in Colorado alone, covering 700,000 acres. The area which it affected in Utah is over 1,000,-000 acres, in New Mexico 300,000, in Arizona 3,000,000 and in Wyoming 700,000.

Washington, Aug. 14.-In the senate the house amendment to the senate bills which adopt regulations to prevent collis-

ion for the previous question, took the same direction on his own motion. Quay's resolution, providing among other things, for a vote on the tariff bill on the 30th of August, was also on motion referred to the committee on rules. After a statement by Quay that the resolution for the general appropriation bills included the river and harbor bill, Hoar offered an amendment so as to include

provisions of existing laws providing for the temporary expenditures of the government to the 29th of August was taken up

and passed.

The tariff bill was then taken up, the pending question being on Vest's amendment, which was offered Monday, reducing the duty on tin plates from 2 2-10 cents per pound to 1 cent per pound. Gray continued his argument in support of the

deficiency appropriation bill comes up to secure an appropriation for reclaiming throughout the arid region of the belts ef

tem a great part of the western lands can be reclaimed and made to yield large and certain crops. He thinks this is espe-cially true of those sections of the country where the trouble arises from prolonged series of drouth at infrequent intervals. To-day he reported from the senate special irrigation committee a proposed amendment to the deficiency bill to ap-propriate \$100,000 to enable the secretary of agriculture to continue his investiga-tions for the purpose of determining the extent and availability for irrigation of the underflow and artesian waters within the region between the 97th degree of longitude and the western foot-hills of the Rocky mountains, and to collect and publish information as to the best methods of cultivating the soil by irrigation.

The house yesterday after very little debate approved the report of the conference on the sundry civil appropriation

bill. The matter now goes back for an argument over the irrigation amendment, which is the only matter left in dispute. Those who have been watching the matter, say that a compromise arrangement would be speedily reached.

The Railroad Strike. New York, Aug. 14.—The strike situa-tion remains practically unchanged, ex-

improved. They say that the running of passenger trains has resumed a normal condition, and that freight trains will be

more regularly moved to-day.

Albany.—The Delaware & Hudson switchmen and brakemen have gone out and the road is tied up. Five hundred Michigan Central men were sent to west Albany at 11 o'clock to move freight for

the New York Central.

Reid, of the locomotive fireman's brotherhood, is authority for the following: "We are all ordered one by an order

from headquarters.' The men claim that they detected the Delaware & Hudson officials endeavoring tend to the whole length of the road.

Three carloads of Pinkerton men have just left the depot to protect non-union men in the west Albany yards. Serious trouble is anticipated.

Gen. Alger's Address to the G. A. E. Bosron, Aug. 14.-Following is a summary of the address of Gen. R. A. Alger, commander in chief of the Grand Army of the Republic, delivered yesterday: He congratulated the heroes of the late war siderable tangle.

That the public may understand how important this matter is, a statement has known as the "Cradle of Liberty," and on celebrating the 25th anniversary of the important this matter is, a statement has been made from the general land office showing how many entries are affected and rendered invalid by the attorney general's opinion as to the scope of this act.

It appears from this statement that there have been 134,000 entries in the entire country and over 9,000,000 acres of land entared.

Shown as the delivered warm words of welcome to Gen. Sherman. He reported the condition of the organization as excellent. The total membership on the rolls is 458, 230 against 427,081 a year ago. After referring to the disappointment in the ranks that congress had not passed a service pension bill, the speaker continued: "Much misapprehension exists, think concerning the disability bill in the speaker continued."

I think, concerning the disability bill passed June 27, 1890. By a careful read-ing of this law and an official explanation of it, it will be seen, no matter what a man's financial condition may be, if he be physically disabled from performing manual labor he is entitled to a pension The conditions being, first, physical disability not necessarily contracted in service; and second, that proof of such disability may be made upon the certificate from his physician

The senate then proceeded to the consideration of executive business. The resolution offered by Edmunds yesterday, limiting debate on the tariff bill, was reported to the committee on rules.

Blair's resolution, authorizing the proof of the certificate from his physician and without the testimony of his former comrades. Should any member of this encampment to-day receive a permanent injury, not the result of his own vicious habits. our law makers, even though they have not given us all we asked. No country on earth is, or ever has been, nearly so generous to its soldiers as ours." Con-cerning the Grant monument, Gen. Alger said: "An ordinary plain vault on the bank of the Hudson marks the resting place of our great chieftain. This is not creditable, either to us or this nation. There should be exceeded the capital There should be erected at the capital city of this government, and dedicated to the memory of this great man, a mecountry, to which every citizen within the domains of this great land can refer with just pride. I recommend that a committee of five be appointed by this encampment, whose duties shall be in accordance with the foregoing object and that they be employed to solicit aid from the general government and indi-

viduals. Washington, D. C., Aug. 14.—An effort will be made in the senate when the deficiency appropriation bill corres with the senate when the deficiency appropriation appropriation with the senate when the senate when the deficiency appropriation appropriati

country in which the sinking of artesian wells would probably be profitable.

Senator Moody, of South Dakota, in particular, thinks that by the artesian system a great part of the western lands can be realized.

Ex-Governor Foster Declines. Tiffin, Ohio, Aug. 14.—Ex-Governor Charles Foster has written a letter to a prominent Repulican leader in this city announcing that under no circumstances will be accept a nomination for congress.

List of Religious Houses in Rome. Rome, Aug. 14.—Premier Crispi has ordered a list to be made of all religious houses in Rome, with a view to confiscating those that are liable to suppression under the law.

Charges Against Army Officers. Washington, Aug. 14.-The charges and specifications in the cases of Col. A. V. Kauntz, 8th infantry, and Gen. J. R. Brooke, have been submitted by Gen. Schofield to the secretary of war for his action.

A Tolk About the Farmers' Alliance. NEW YORK, Aug. 14.-Senator John P. ones, of Nevada, expressed himself very freely in an interview on the Farmers' Alliance. He thought that farmers might secure twenty or thirty or even forty Al-liance members in the next congress. "Then the end of the movement will come," said he, "because when they are there they will have nothing for which

cepting that the officials claim that it is they can unitedly ask or which they will demand to have done that is not now being done. That part of their move ment on which I look with most interest is the demand for the issuance of money upon products—corn, wheat, oats, etc. It is going to make the men who have been crying for years that money must have an intrinsic value take a new view of things.
